SETTINGS FOR OFFICIAL GALACTIC EMPIRE IRC CHANNELS

1. In an effort to ensure the security of all Imperial IRC channels by maintaining Throne control for unforeseen and transition arrangements, the following directive is being issued by the Imperial Security Bureau.
2. Official Imperial channels are defined as those channels that begin with #cmg-empire, regardless of the faction, branch or department making use of the channel.
3. It is a requirement that all official Imperial channels must have the Emperor set as Founder, and the Executor set as Successor. The nicks required to be set for channels are as follows:
 - a. The Emperor's IRC nickname is Guinar; and
 - b. The Executor's IRC nickname is Seele.
4. A secondary requirement for all official Imperial channels is that the Grand Vizier, and Director of the Imperial Security Bureau are given an access level of SOP for the channel. The nicks required to be set for channels are as follows:
 - a. The Grand Vizier's IRC nickname is J_Taidan; and
 - b. The Director of the ISB's IRC nickname is Mikel.
5. The Imperial Security Bureau has authority to require and/or grant access to official Imperial channels, to any Imperial Security Bureau Agent as the Director of ISB deems necessary; except for channels established for use by the Inner Circle, Imperial High Command, Imperial Intelligence and the Sith Order.
6. Questions or issues regarding this directive should be directed to the Imperial Security Bureau.
